

March 17, 2014

7:30 - 8:30 AM

8:30 AM

8:50 AM *Sato, Yuko

9:00 AM Ibrahim, Mahmoud

9:20 AM Nolting, Jacqueline

9:40 AM *Elaiish, Mohamed

10:00 AM Mor, Sunil

10:20 AM *Sharafeldin, Tamer

10:40 AM **Break**

11:00 AM *Osunderu, Oluwakemi

11:20 AM Aehe, Sandra

11:40 AM Cervantes, Hector

Noon to 1:15 Lunch

1:15 PM Weaver, Alexander

1:30 PM Owen, Robert

1:50 PM Fulton, R. Mick

2:10 PM Kim-Torchetti, Mia

2:30 PM Abbassi, Hayet

2:50 PM **Break**

3:10 PM Wakenell, Patricia

3:30 PM Lauer, Dale

3:50 PM Karunakaran, Daniel

4:10 - 5:00 PM

5:00 - 5:45 PM

6:00 - 8:00 PM

March 18, 2014

8:00 Wilcox, Brian

8:45 AM Lamm, Ken

9:30 AM Fairchild

10:15 AM Break

10:30 AM Quant, Anthony

11:15 AM Arends, Jim

:00 - 12:15 PM Panel

Monday - Scientific Program

Registration

Welcome

Necrotizing and hemorrhagic enteritis and hepatitis in commercial layers in Indiana

Toward the development of broadly reactive influenza vaccine for the control of highly pathogenic avian influenza H5N1 in Egypt

Challenges with the detection and characterization of avian-origin influenza A viruses from wild-waterfowl

Immunogenicity and protective efficacy of combined vaccination with recombinant M2e and inactivated influenza vaccine in chickens

Molecular characterization of newly isolated turkey arthritis reoviruses

Long term pathogenicity of turkey arthritis reovirus (TARV) in turkeys

The socio-economic impact of vaccine failure on poultry farms in Nigeria

Early vaccination for protection against salmonella infections of poultry

Salmonella control programs in the USA

Generously sponsored by Alltech

Mycotoxins: Effect on Immunity and Performance and Developing an Effective Program to Manage Them

The Effectiveness of a *Bacillus licheniformis* Probiotic on the Reduction in *Salmonella heidelberg* Shedding and Colonization in Broiler Chickens

Why biosecurity is important in the duck industry

2013 review of avian influenza viruses detected in the United States
